Introduction.

The purpose of the guide is to familiarize users with the basic functionality of business process management service Bitrix24, necessary for working in enterprises that are partners of GreenMe SA.

A user working with Bitrix24 must be a confident PC user.

The features of Bitrix24 include:

- CRM;
- video calls;
- documents online;
- tasks and projects ;
- contact center;

Bitrix24 is developed on the basis of PHP.

Purpose of the Bitrix24.

The main purpose of Bitrix24 at partner's enterprises of GreenMe SA at partner enterprises is to automate acceptance, shipments, and product placement and tracking the supply chain from manufacturer to seller. This will eliminate the possibility of acceptance of counterfeit goods in the warehouse and a way to minimize errors caused by the human factor.

Logging in Bitrix24.

In order to log into Bitrix24, you need to enter your email in the format **'yourname@domain.com'**. Then click the **'Next'** button.

The screenshot shows the Bitrix24 login interface. On the left, a blue sidebar contains the Bitrix24 logo, a 'back to site' link, and promotional text: 'Your company. United. Free. Unlimited. Online. Register today and get free forever plan and unlimited users'. A language dropdown menu is set to 'English'. The main white area is titled 'Bitrix24 sign in'. It includes a yellow instruction box: 'Please log on using your login and password (or use social login) to enter helpdesk.bitrix24.ru.'. Below this is a text input field labeled 'Enter phone number or email' containing 'jonndoe@yourmail.com'. A 'or' separator and 'Sign in with' section with social media icons (Google, VK, Odnoklassniki, Yandex, Apple, Microsoft) and a QR code option are present. A green 'NEXT' button and a 'FORGOT PASSWORD?' link are at the bottom. A 'Need help?' link is at the very bottom right.

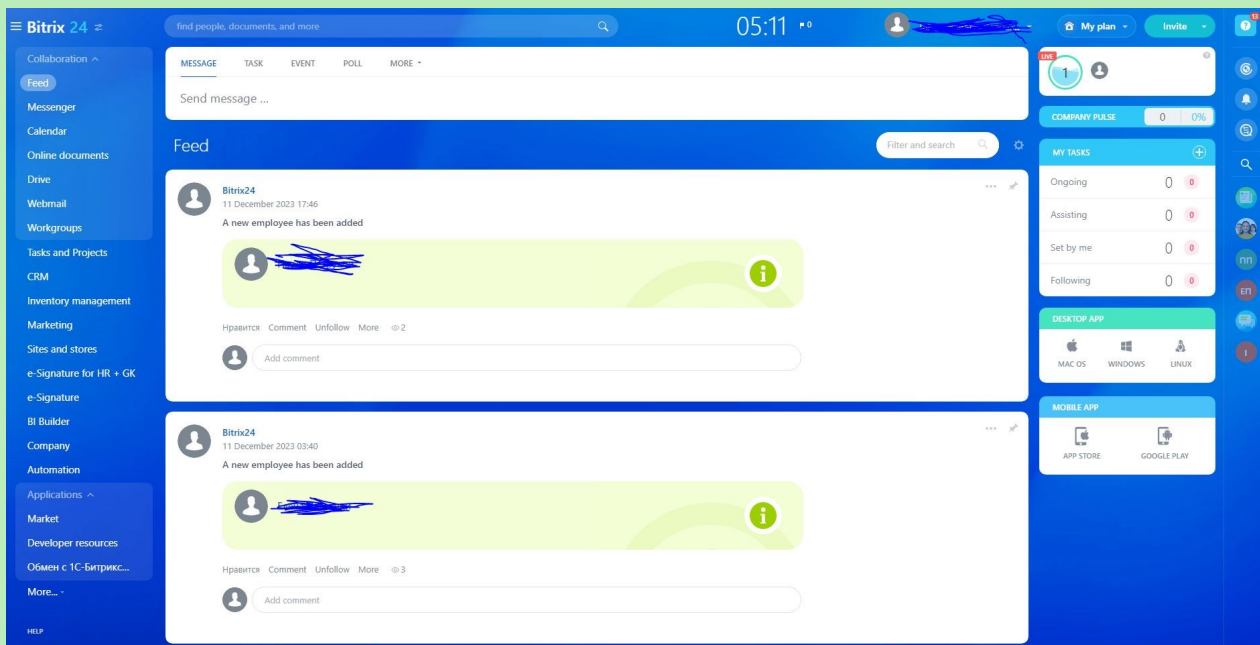

Then you need to enter the password and click to the **"Next"** button.

This screenshot shows the same Bitrix24 login interface as the previous one, but at the password entry stage. The email field now displays a masked profile picture. The text input field is labeled 'Enter your password to confirm this account belongs to you'. Below the field is a 'Remember me' checkbox which is checked. The 'NEXT' button and 'FORGOT PASSWORD?' link remain at the bottom. The 'Need help?' link is still at the bottom right.

Bitrix24 Main Page.

The Bitrix24 home page includes the following functionality:

- ♦ The main menu;
- ♦ sidebar;
- ♦ news feed;
- ♦ task list;
- ♦ number of employees online;

Tasks

To create a task, select **“Task”** at main menu.

Then enter the name and description of the task, assign a performer(assignee) and a deadline for completing the task. After that, click **“Send”**.

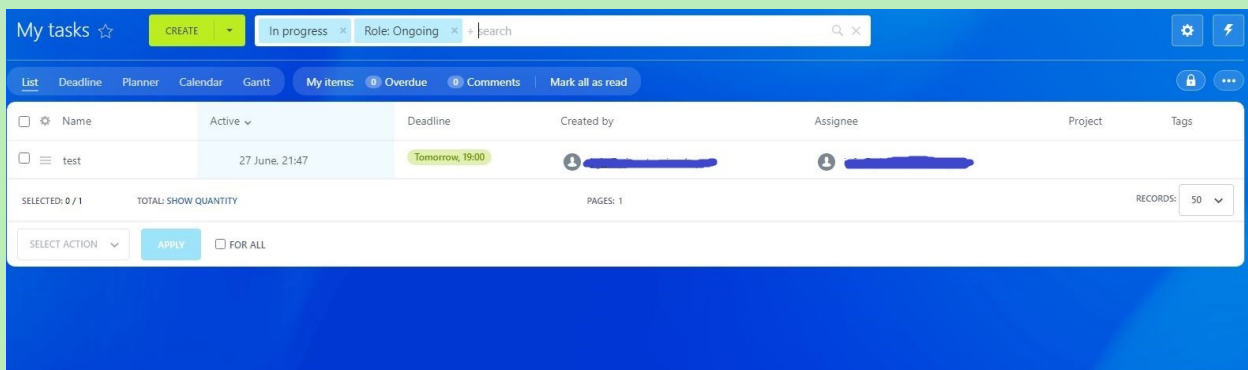

The screenshot shows a 'Task' creation form within a software application. The form is titled 'Enter task name' and includes a 'High Priority' toggle. Below the title bar, there are several tabs: MESSAGE, TASK (selected), EVENT, POLL, and MORE. The form fields include: Assignee (with a dropdown menu showing a selected user and a '+ Add more' button), Deadline (with a date picker and a calendar icon), and Task status summary (with a checkbox for 'Task status summary is required'). The form also features a 'CoPilot' button, a 'File' button, a 'Create document' button, a 'Mention' button, a 'Quote' button, a 'Checklist' button, an 'Add to checklist' button, and a 'Checklist' button. At the bottom, there are 'SEND' and 'CANCEL' buttons. A 'More' dropdown menu is visible at the bottom left, containing options like Project, Time tracking, Remind, Repeat, Gantt, CRM, Subtask, Tags, and Fields.

Task Management.

To switch to task management in Bitrix24, click on the sidebar with the task list. To go to a section and view it, click on the section name. A task list page opens in front of you.

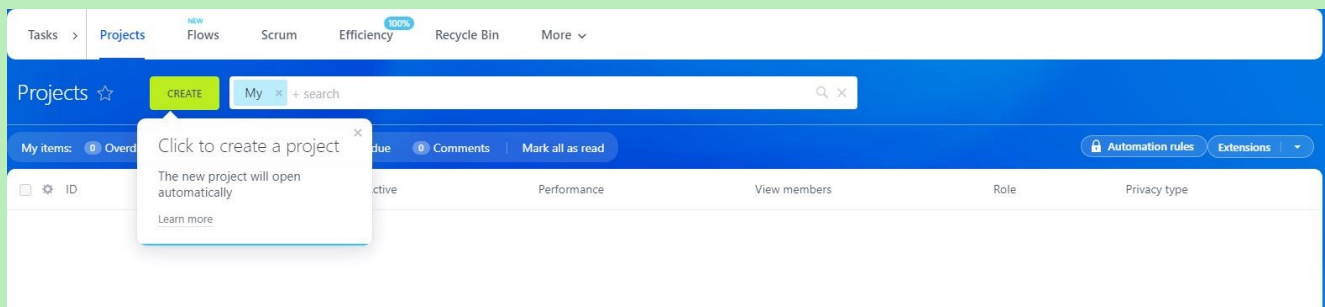

The functionality of the page includes:

- ♦ the ability to create projects;
- ♦ flow;
- ♦ scrum;
- ♦ performance monitoring;
- ♦ reporting management;

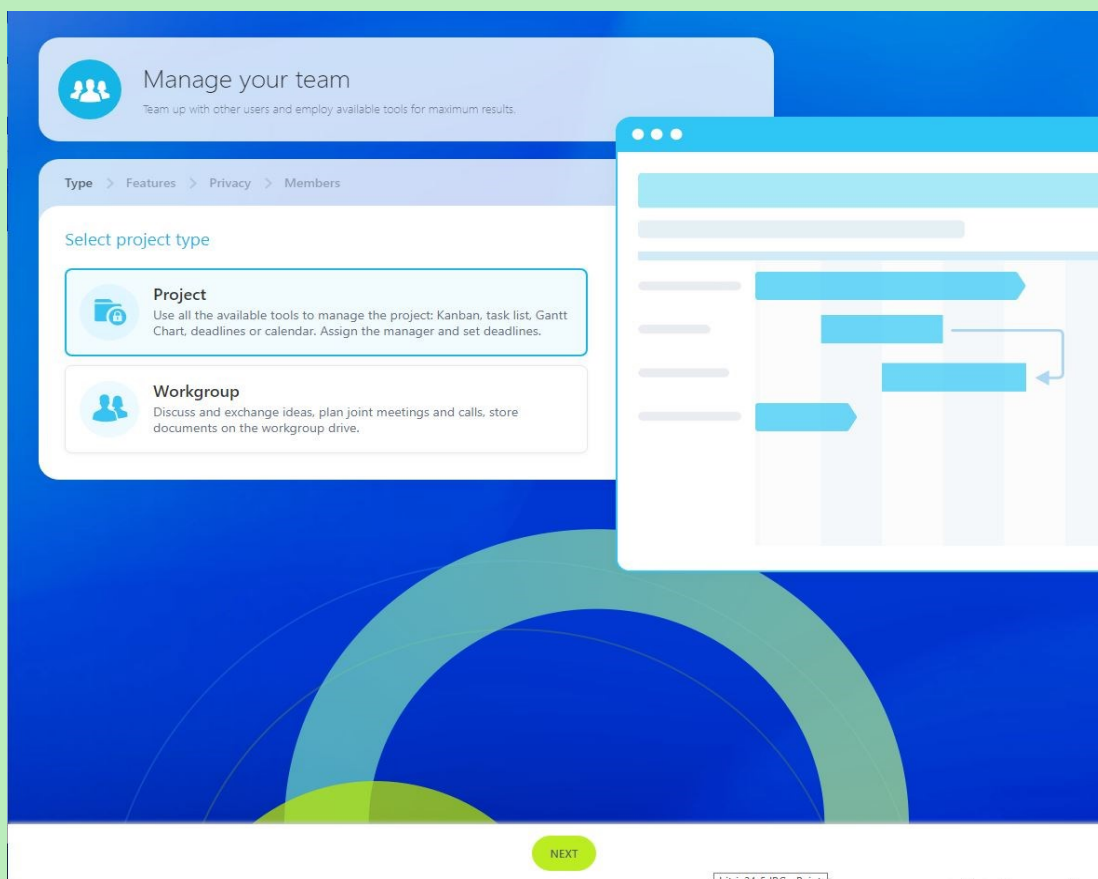

Project management. Project creation.

To create a project in Bitrix24, click on the “Project” button.

In the window that opens, you will be given a choice of the type of project – “Project”. After selecting it, click on the “Next” button.

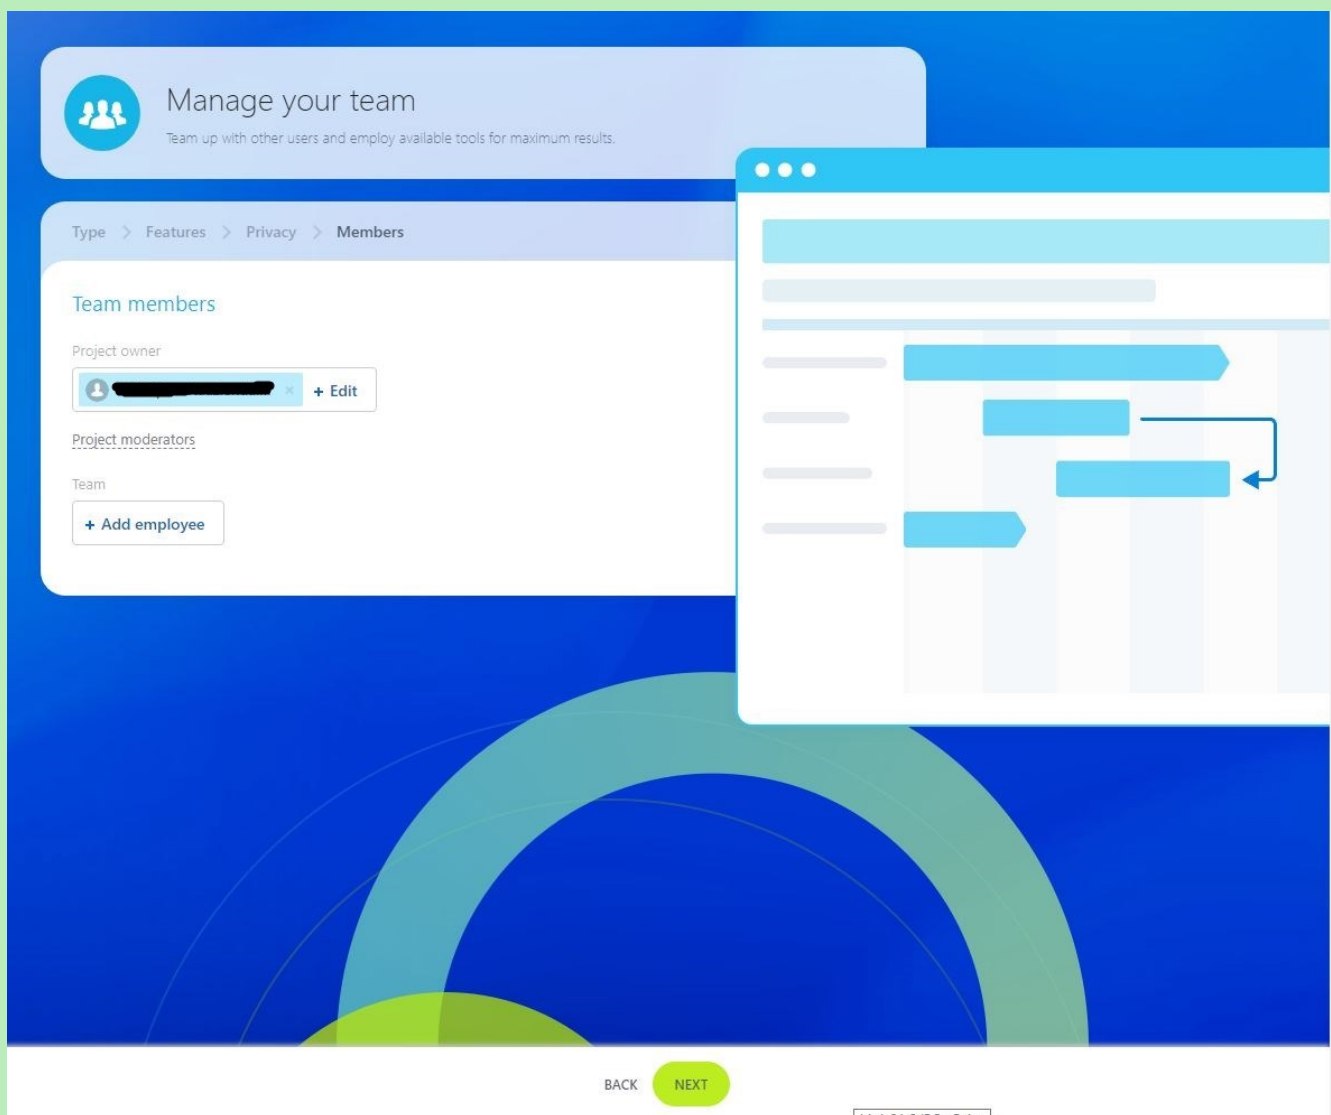

Project management. Project creation.

After proceeding to the “Features” step, you must enter the name of the project, select a theme and a project icon. Then click on the “Next” button.

The screenshot shows a web application interface for project management. At the top, there's a header with a blue background and a white circle containing three people icons, followed by the text "Manage your team" and a subtitle "Team up with other users and employ available tools for maximum results." Below this is a breadcrumb navigation bar with links: "Type > Features > Privacy > Members". The main content area is titled "About project" and contains several sections: "Project name" with a text input field, "add description" with a text area, "Visual theme" with a preview of a pink patterned theme, and "Project icon" with a row of six circular icons (blue, green, teal, purple, red, and grey). At the bottom of the form, there are two buttons: "BACK" and "NEXT". A semi-transparent window on the right side of the form shows a preview of the project's visual theme, featuring a blue background with white and light blue geometric shapes and arrows.

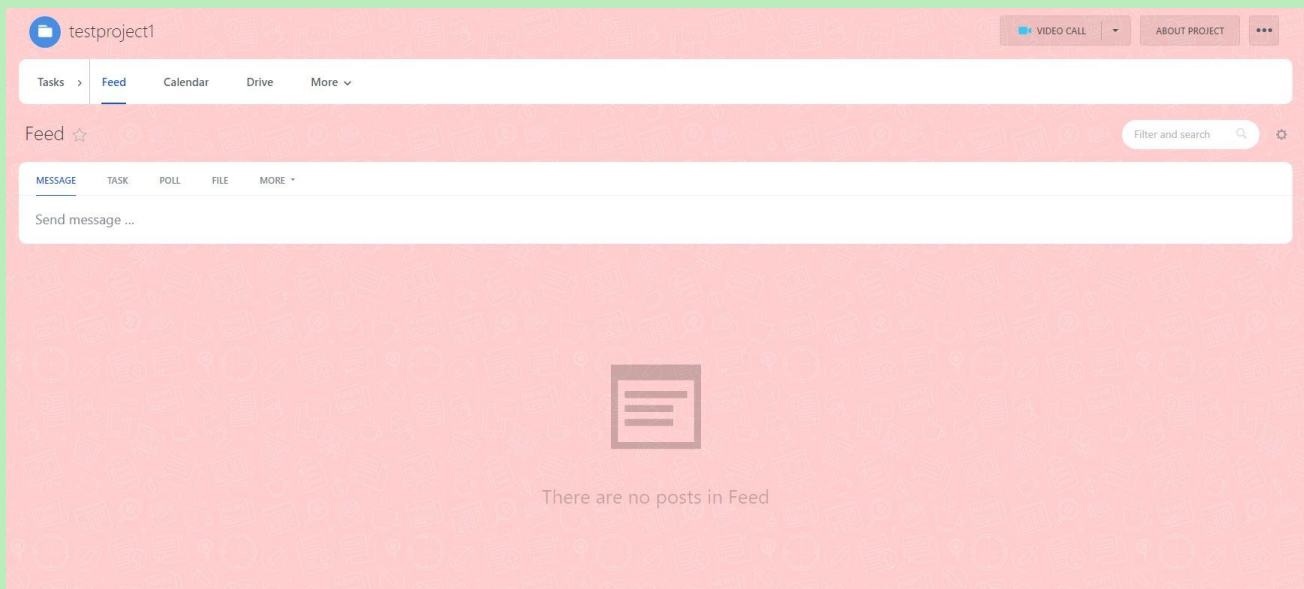

Project management. Project creation.

After proceeding to the “**Members**” step, you need to add the project owner and members of the project team . Then click on the “**Next**” button.

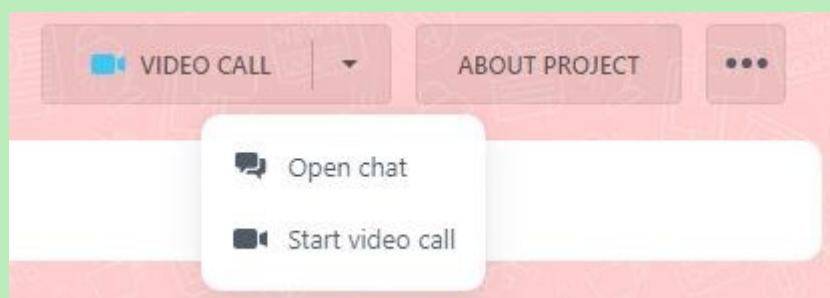

Project management.

After creating the project you will be redirected at the main page of project.

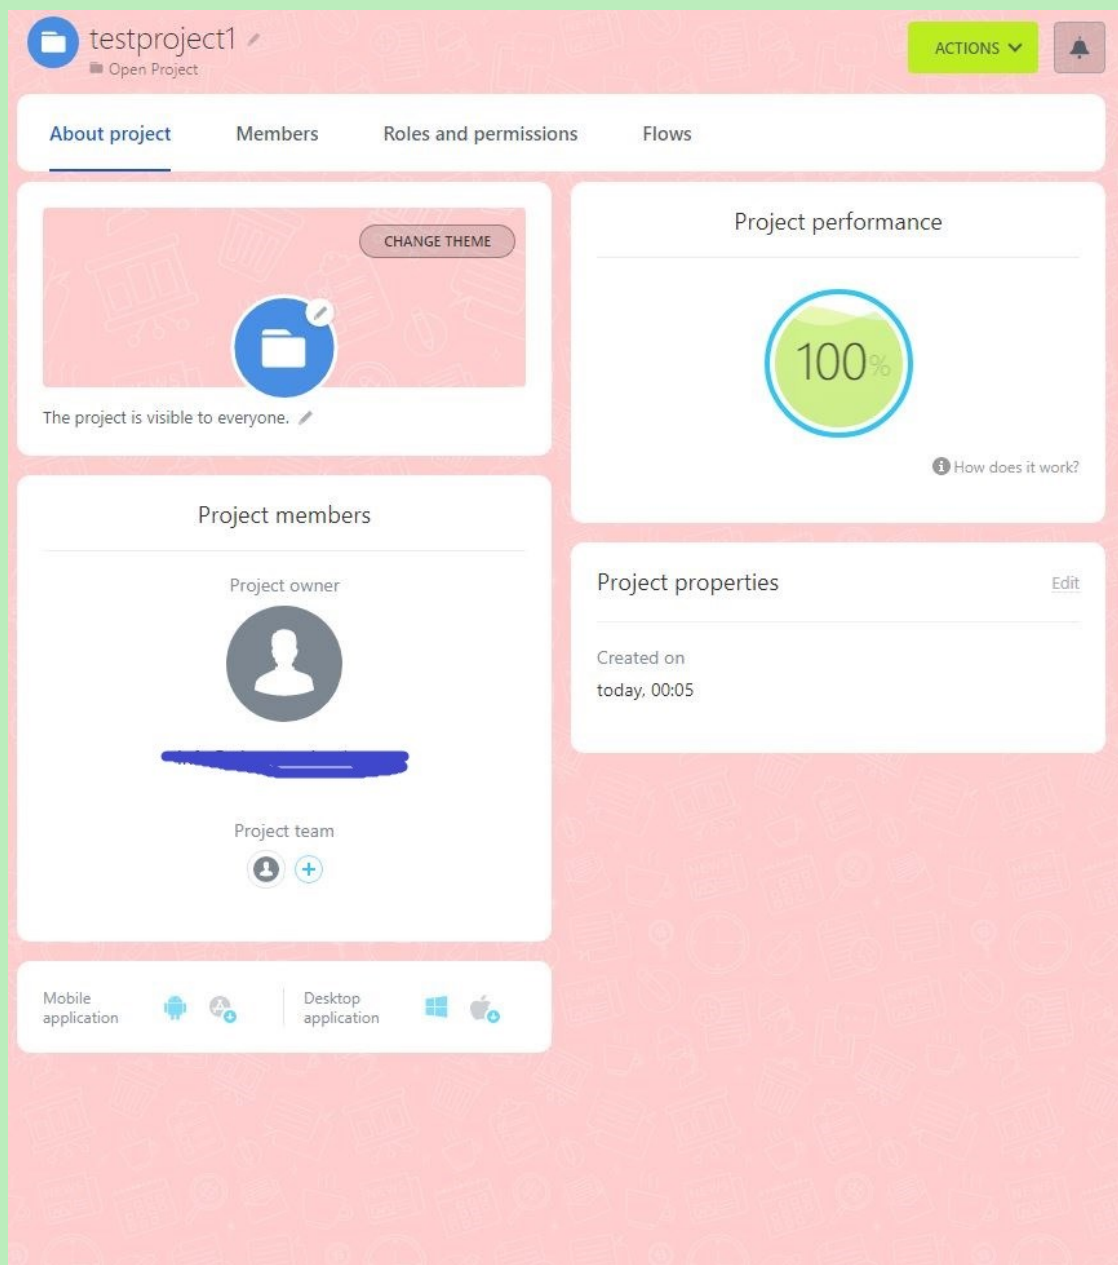

In order to get started video or chat conversation with project team members you should click the button **“Video Call”** and choose **“Start Video Call”** or **“Open chat”**.

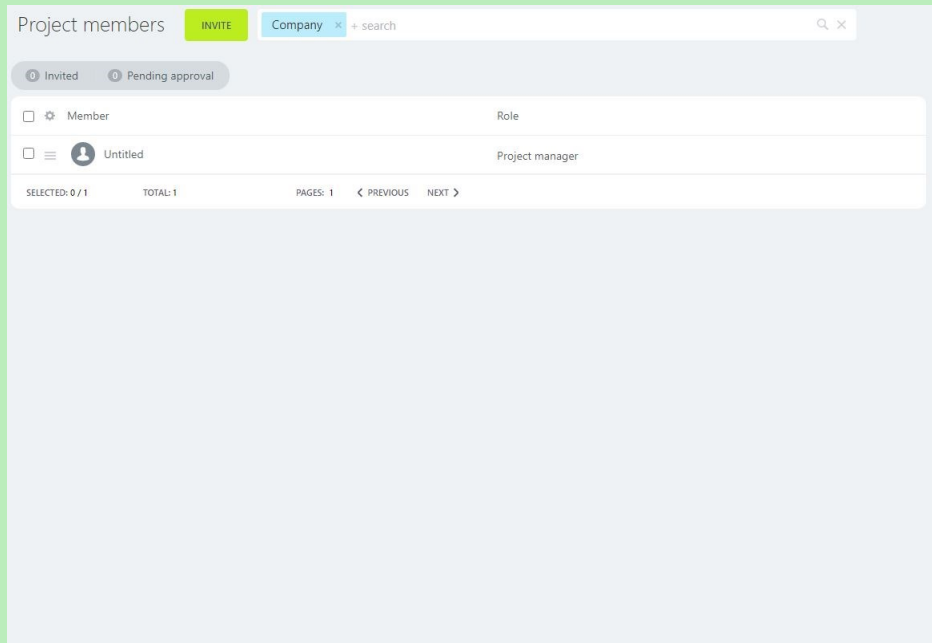

Project management.

For inviting members, add flows, manage roles and permissions you should click at the **“About Project”** button. After clicking, the project profile page will open.

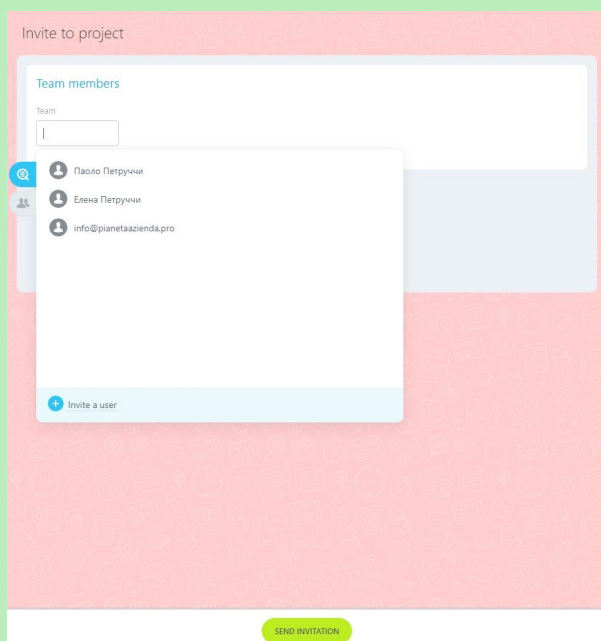

Project management. Invitations.

In order to invite a team member to the project, select the **"Members"** tab and click on the **"Invite"** button.

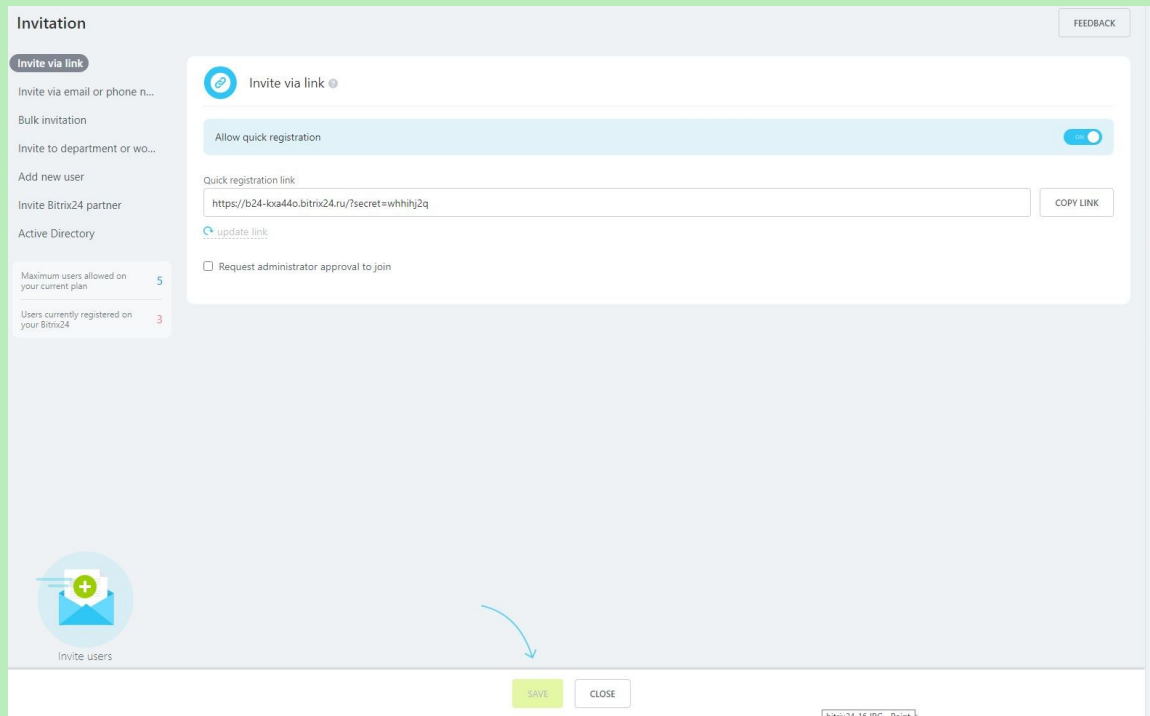

Then you need to click on the **"Add employee"** button and select a user from the list.

To invite a user who isn't connected to Bitrix24, click on the **"Invite a user"** button.

Project management. Invitations.

A window will open where you will be offered several ways to invite a team member from the outside. After selecting the method, click on the **"Save"** button.

The screenshot shows the 'Invitation' window in Bitrix24. On the left, a sidebar lists invitation methods: 'Invite via link' (selected), 'Invite via email or phone n...', 'Bulk invitation', 'Invite to department or wo...', 'Add new user', 'Invite Bitrix24 partner', 'Active Directory', and a summary section showing 'Maximum users allowed on your current plan' as 5 and 'Users currently registered on your Bitrix24' as 3. The main area is titled 'Invite via link' and includes a toggle for 'Allow quick registration' (turned on), a 'Quick registration link' field containing 'https://b24-koa44o.bitrix24.ru/?secret=whhhj2q' with a 'COPY LINK' button, an 'update link' button, and a checkbox for 'Request administrator approval to join'. At the bottom, a blue arrow points to a green 'SAVE' button and a 'CLOSE' button. A 'FEEDBACK' button is in the top right corner.

Project management. Roles and permissions.

To manage roles and permissions, select the “Roles and Permissions” tab.

Help

Project management. Drive.

You can upload files to the Bitrix24 disk and create directories for them. To create a folder, click on the **"Create a folder"** button.

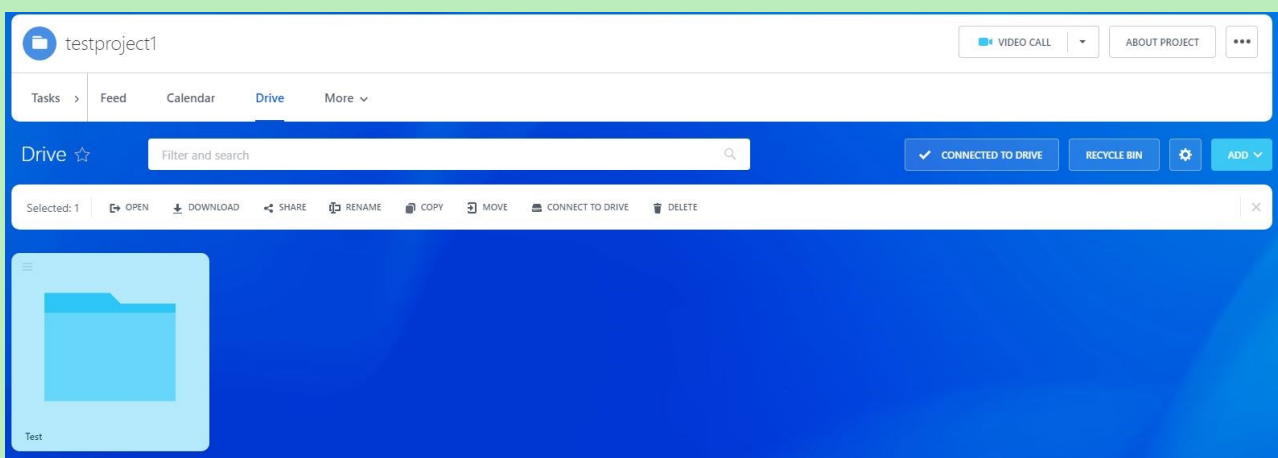

Then enter the folder name and click on the **"Create"** button.

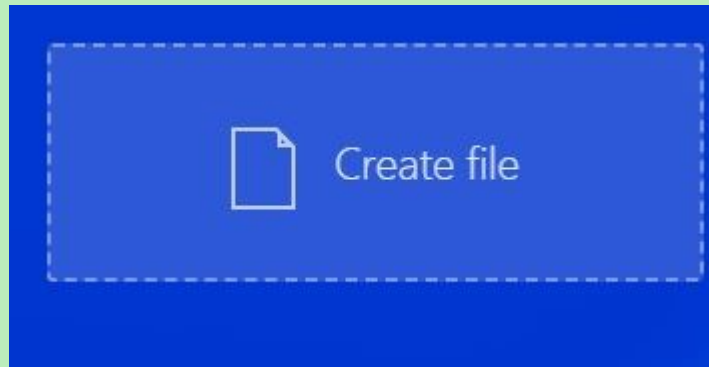

Project management. Drive.

After creating a folder, the main page of the disk will open with an already created folder, where the following options are available in the top menu: opening a folder to add a file, uploading to the computer's hard disk as .zip archive, provide access to the folder via a link or by adding a user, renaming, copying, moving and deleting.

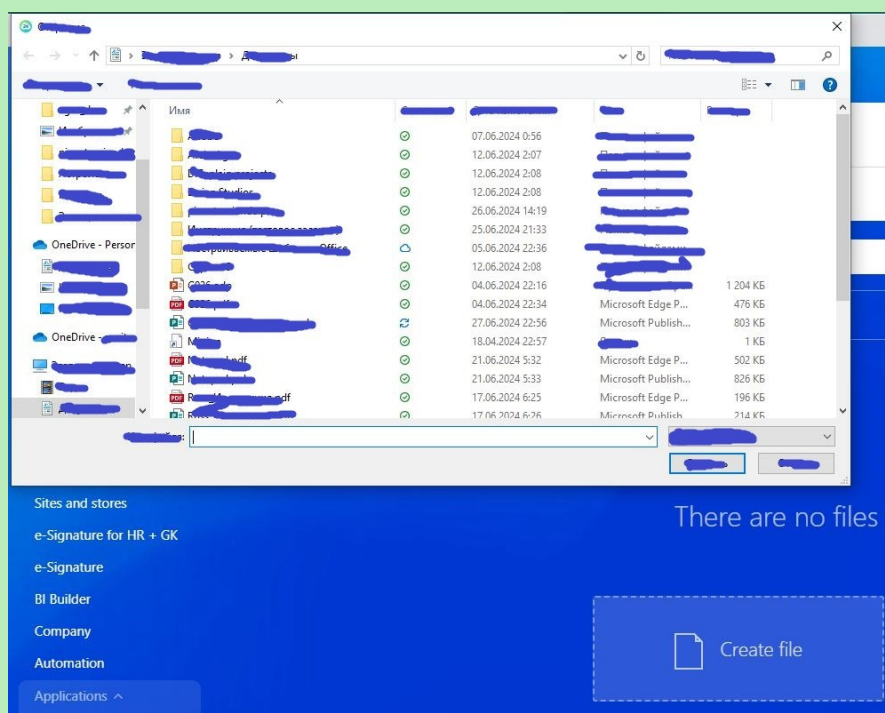

Project management. Drive.

In order to upload a file to the Bitrix24 Drive, click on **"Create a file"**.

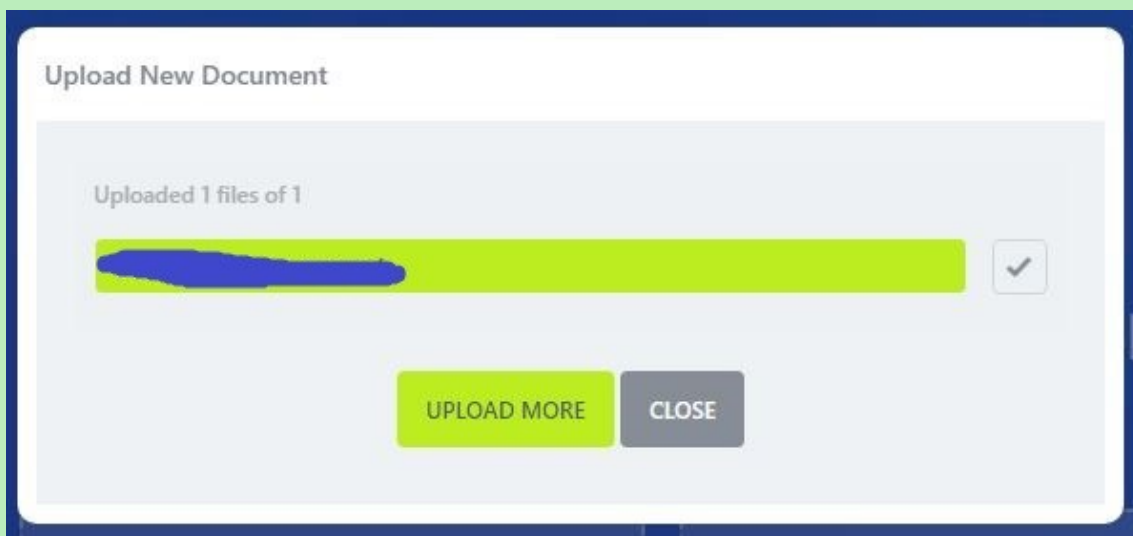

After clicking on the button, a window will open for selecting a file from the hard disk of the user's computer, where you need to select the file to download and click on the **"Open"** button.

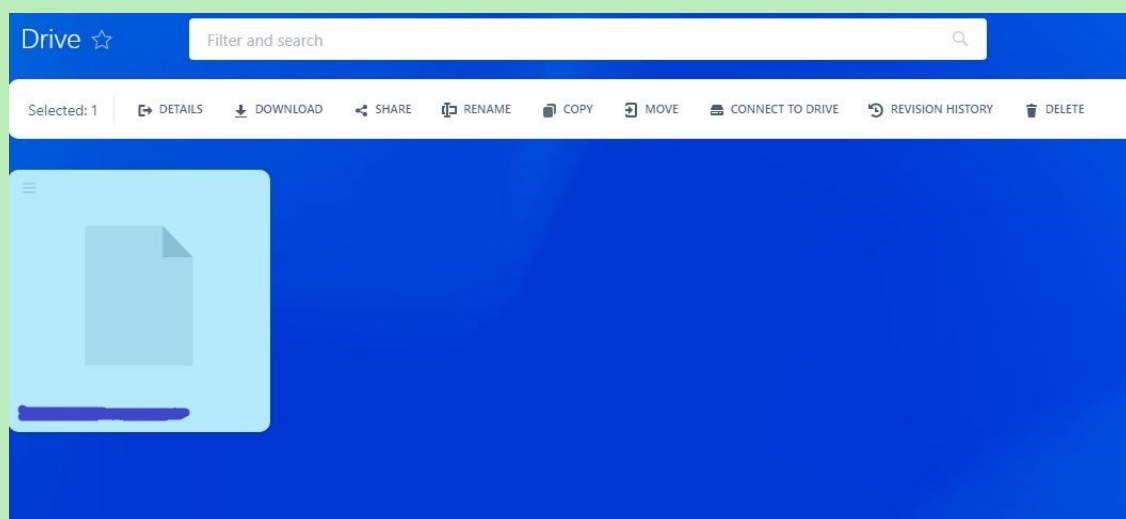

Project management. Drive.

After selecting the file, a window will open where the file download scale will be shown, as well as the "Upload more" button, which allows you to upload more files to drive.

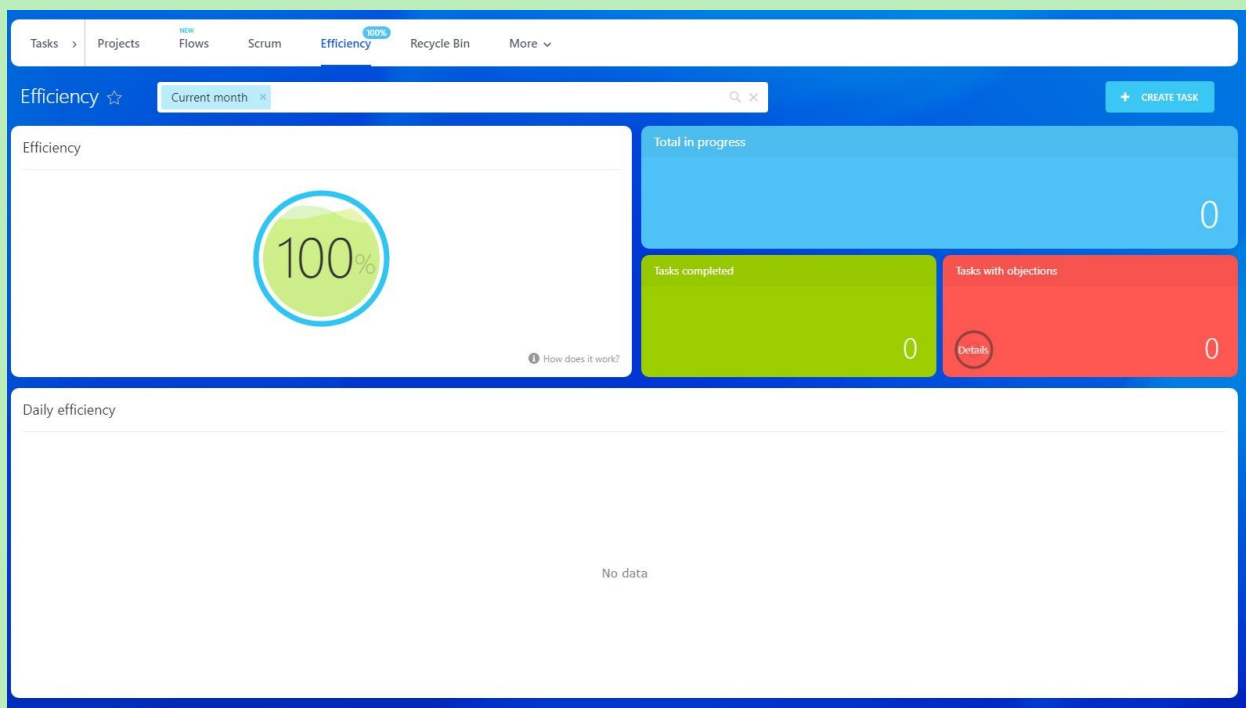

After downloading, the main page of the drive will open, where the downloaded file will be displayed.

Project management. Efficiency

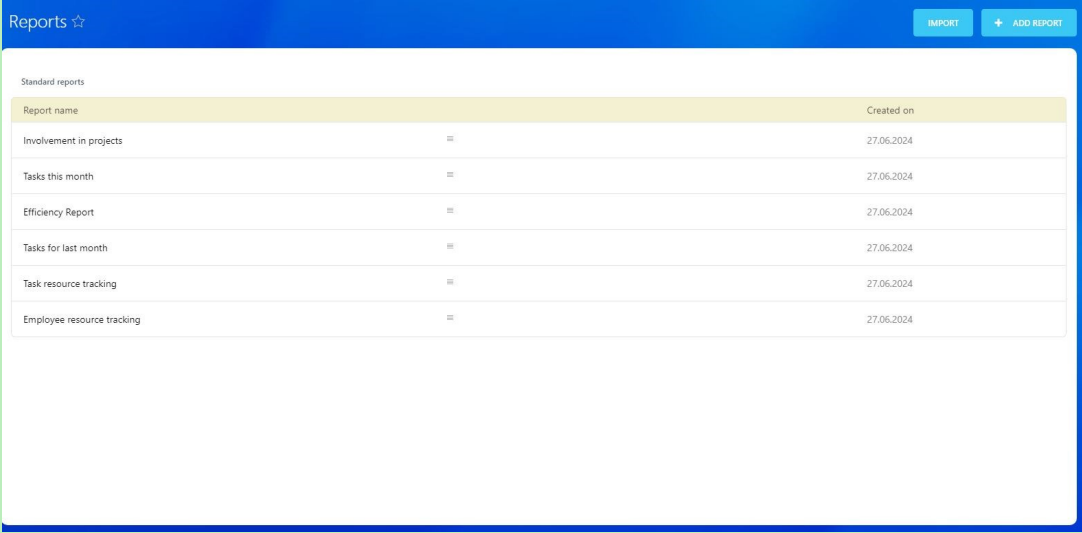

To monitor the performance of project teams, click on the **"Efficiency"** tab. After clicking, a window will open with dashboards displaying the number of completed tasks, tasks in progress, etc.

Project management. Reports

To go to the reports, select the **"More" > "Reports"** tab.

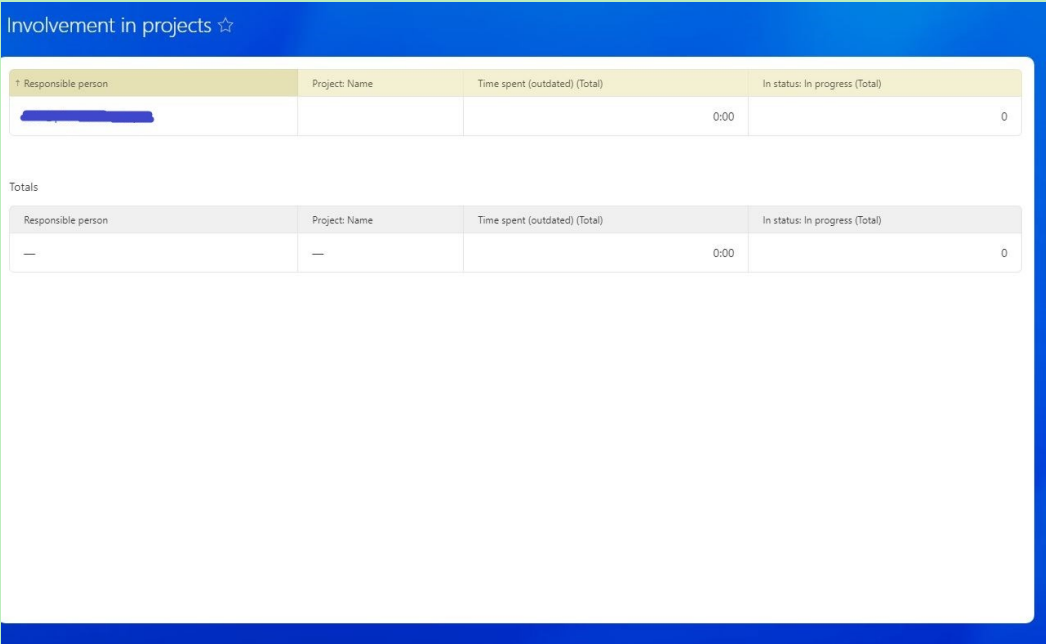

The main page opens with a list of reports.

The screenshot shows the 'Reports' page with a blue header bar containing the title 'Reports' and a star icon. On the right side of the header are two buttons: 'IMPORT' and '+ ADD REPORT'. Below the header, there is a section titled 'Standard reports' which contains a table with the following data:

Report name	Created on
Involvement in projects	27.06.2024
Tasks this month	27.06.2024
Efficiency Report	27.06.2024
Tasks for last month	27.06.2024
Task resource tracking	27.06.2024
Employee resource tracking	27.06.2024

To view and edit the report, click on the name of the report. After clicking, the contents of the report will be displayed.

The screenshot shows the 'Involvement in projects' report page. The header bar is blue with the title 'Involvement in projects' and a star icon. Below the header, there is a table with the following data:

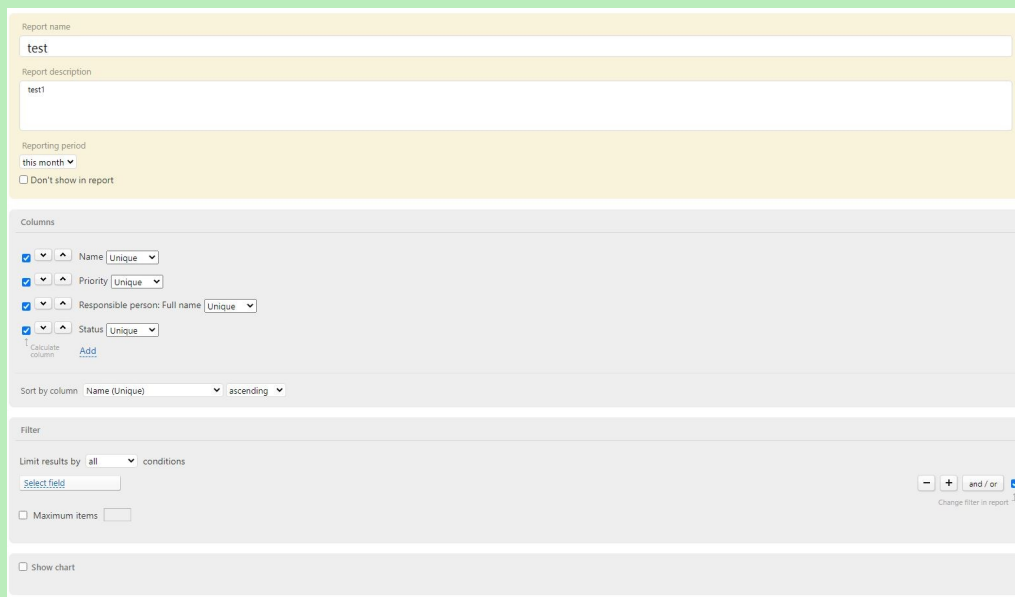

† Responsible person	Project: Name	Time spent (outdated) (Total)	In status: In progress (Total)
[Redacted]		0:00	0

Below this table, there is a section titled 'Totals' which contains another table with the following data:

Responsible person	Project: Name	Time spent (outdated) (Total)	In status: In progress (Total)
—	—	0:00	0

Project management. Reports.

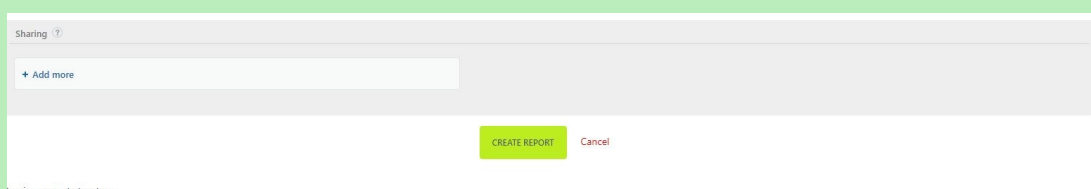

To create a report, click on the **"Create report"** button.

The screenshot shows a web form for creating a report. It includes the following sections:

- Report name:** A text input field containing the word "test".
- Report description:** A text area containing the text "test1".
- Reporting period:** A dropdown menu set to "this month" and a checkbox labeled "Don't show in report".
- Columns:** A section with four rows of column configuration. Each row has a checkbox, a dropdown for sorting, and a dropdown for uniqueness. The rows are:
 - Name (Unique)
 - Priority (Unique)
 - Responsible person: Full name (Unique)
 - Status (Unique)
 Below these rows are links for "Calculate column" and "Add".
- Sort by column:** A dropdown menu set to "Name (Unique)" and a dropdown for "ascending".
- Filter:** A section with a "Limit results by" dropdown set to "all", a "conditions" dropdown, a "Select field" button, and a checkbox for "Maximum items".
- Show chart:** A checkbox at the bottom.

Next, a window opens where you need to enter the name and description of the report, the reporting period, and configure data filters. Next, click the **"Create report"** button.

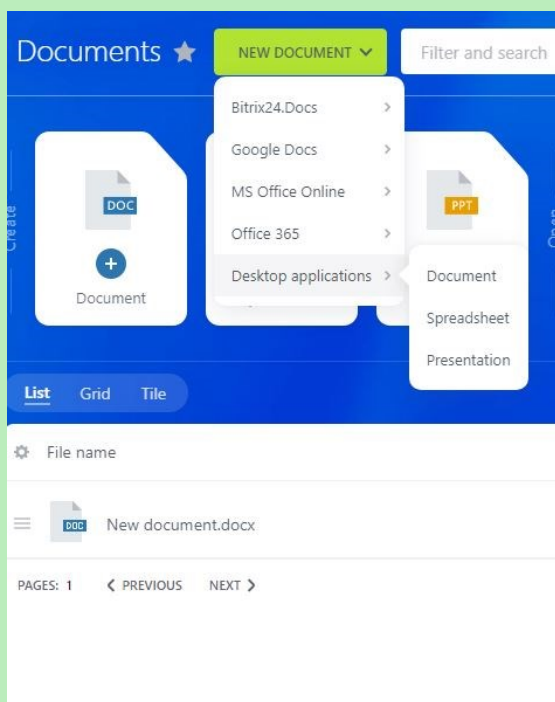

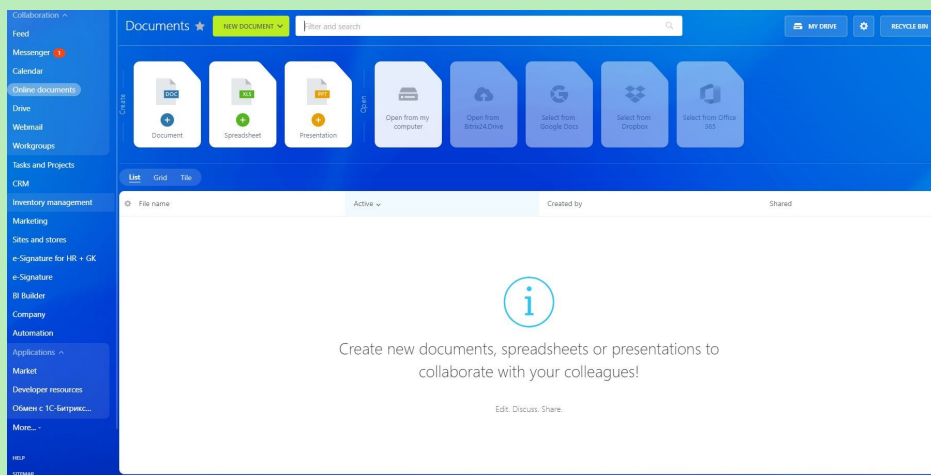

The screenshot shows a confirmation window for creating a report. It includes the following elements:

- Sharing:** A section with a "Add more" button.
- Buttons:** A green "CREATE REPORT" button and a "Cancel" button.

Online Documents.

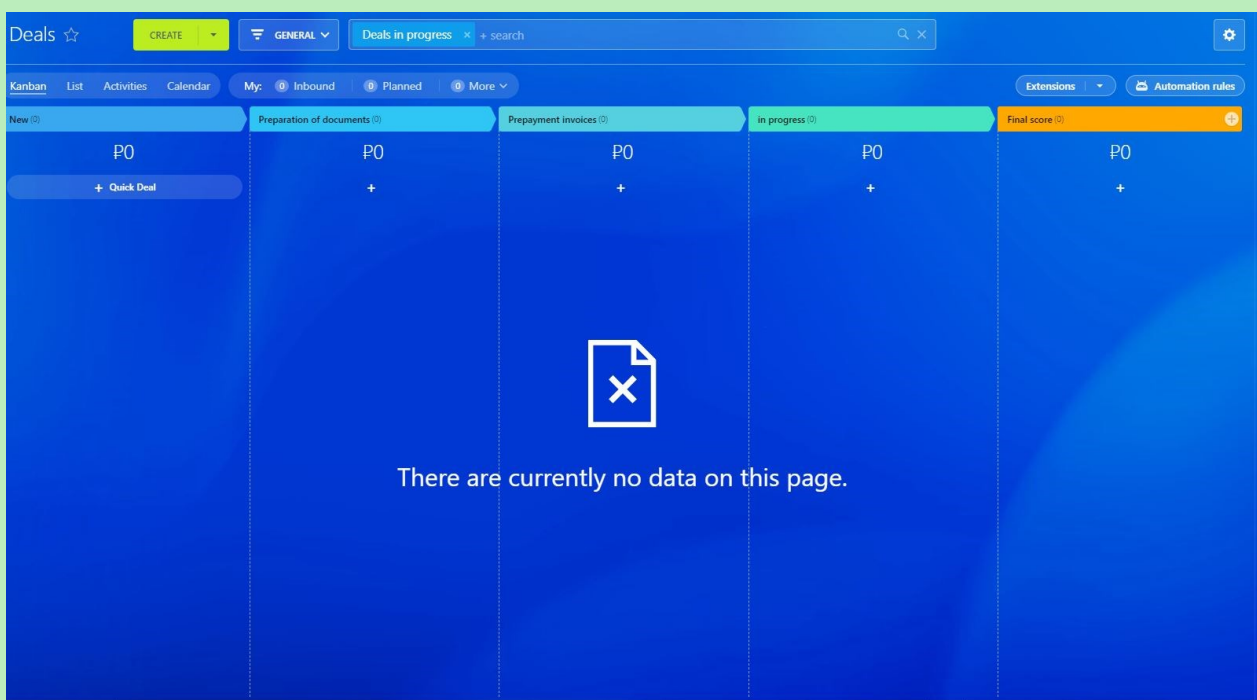

In order to work with documents online in Bitrix24, you must select the **"Documents Online"** item in the sidebar.

The main page opens, where you can create a text, tabular document, presentation, and download the finished document by clicking on the **"New document"** button and selecting the document type. Immediately after clicking, a newly created document will appear in the list of documents.

CRM.

In Bitrix24, it is possible to control the workflow for any operations through CRM (Customer Relationship Management). In order to start working in CRM, you need to go to the sidebar and click on the "CRM" button. The main page opens, consisting of a kanban and an upper, horizontal menu.

CRM. Create a deal.

To create a deal, click on the **"Create"** button.

A window will open in which you should enter the transaction details. After entering the data, click the **"Save"** button.

The screenshot shows a 'New deal' form in a CRM system. The form is divided into two main sections: 'ABOUT DEAL' and 'MORE'. The 'ABOUT DEAL' section includes fields for Name, Deal #, Stage (set to 'New'), Amount and currency (set to 'Russian Ruble'), End date (set to '05.07.2024'), Client, Contact (with a search bar), and Company (with a search bar). There are also links for 'Select field', 'Create field', and 'Delete section'. The 'MORE' section includes a 'Deal type' dropdown (set to 'Not selected') and a 'Source' field. On the right side of the form, there is a sidebar with tabs for 'Activity', 'Comment', 'Task', 'Slots', 'WhatsApp', 'SMS', 'Invite to chat', 'E-mail', 'Delivery', 'Zoom', 'Visit', and 'More'. Below these tabs, there is a 'Things to do' section with a 'Things to do' button and an 'Add a new activity' button. A message at the bottom of the sidebar says 'You are now adding a deal...'. At the bottom of the form, there are 'SAVE' and 'CANCEL' buttons, and a 'Print' button.

CRM. Create a deal.

After saving, the deal will appear on kanban. To change the status, click on the name of the transaction and click on the **"Stage"** item to assign the appropriate status to the document.
